Judge Mack.

The *Tribune* is agreeably surprised in Judge Mack. This paper strenuously opposed his election, having doubts of his ability to deal out justice, but, although barely a month on the bench, he has shown marked familiarity with the law, force of character and firmness of decision. His dispatches business with promptness, is fair to lawyer and client and shows no disposition to be partisan.—*Carson Tribune*.

GENERAL FILE.

By Richards, Senate Joint Resolution—That a joint committee of eight, five from the Assembly and three from the Senate be appointed to revise the Australian ballot law. Adopted, and the Chair appointed Richards, Patchen and Maute as such committee in behalf of the Senate.

At 1:30 the Senate took a recess till 2 P. M.

AFTERNOON SESSION.

By Beck, Assembly Concurrent Resolution No. 1—Relative to a Constitutional Convention to revise and correct to date the Constitution of the State of Nevada. Temporarily laid on the table.

THE KEELY CURE.

Substitute for S. B. No. 13—From Ways and Means Committee, was on motion taken up and read for general information. Treatment and cure of persons detrimentally addicted to the use of intoxicating liquors and the excessive use of drugs. State or county to pay for the Keely cure if the subject is unable to do it on representation of relatives or friends. Substitute adopted and ordered printed.

GENERAL FILE.

By Wise, S. B. No. 16—Amendatory of Act fixing salaries and compensations of Humboldt county officers, also to consolidate certain offices in said county, and to repeal all acts conflicting therewith. Passed unanimously.

By Beck, A. B. No. 2—Amendatory of Act to limit the powers of certain Washoe county officers. Judiciary Committee.

By Beck, A. B. No. 16—Preservation of deer, elk, antelope and other wild game.

By Pitt, A. B. No. 40—Building and furnishing of dormitories and purchase of additional lands for the State University. Buildings to be of brick or stone. Appropriates \$38,000 for the purpose. Considered by Committee of the Whole, Mills in the Chair, favorably recommended, and in regular session report of committee adopted and bill passed unanimously.

By Patchen, S. B. No. 21—Amendatory of Act providing for the appointment of Notaries Public and defining their duties. Passed unanimously.

By Denton, Assembly Joint Resolution No. 8—Concerning increased mail facilities between Pioche and DeLamar in Lincoln county. Passed unanimously.

By Gregovich, S. B. No. 7—Amendatory of Act to create a fire department fund in Eureka county, to pay off indebtedness, etc. Passed unanimously.

By Boyle, S. B. No. 13—Providing for the Keely cure of persons addicted to the immoderate use of intoxicating liquors and drugs. Done at expense of State or county by order of Court on representation of relatives or friends, in no case to cost over \$130.

Patchen opposed the bill on general principles, and Boyle stood in for it as a wise provision, being cheaper to save a man from ruin and crime against society and the laws than to punish him for it afterward.

Comins considered it an innovation, but a good one. In a clear case of insanity a man is sent to a lunatic asylum. It is generally conceded that a man who gives himself up to drinking to excess is of no longer use to himself and family, even his friends consider he were better gone over the river. This is a move in the right direction. Do unto others as you would be done by. When you find your fellow man stuck in the mud it is your duty to help him out.

McCone opposed the bill on the ground of special legislation. We are opening our treasury. A small appropriation is called for, but when that is run out a relief bill follows and the limit is not defined. It makes us liable to expenditures which I am satisfied we will regret.

The bill being placed on its final passage, the roll call resulted as follows: Yeas—Boyle, Comins, Kaiser, Maute, Mills, Richards, Wilson, S. Nays—Gignoux, Gregovich, McCone, Patchen.

At 12:30 recess taken till 2 P. M.

AFTERNOON SESSION.

Special order—By Beck, A. C. R. No. 5—Relative to discrimination in freight charges by the Pacific Railroad Companies. Beck moved its adoption and spoke somewhat at length in favor of his motion and strongly against the notorious discrimination against all points in Nevada, and declared that the suspension of Section 4 of the Interstate Commerce Act was in the interest of the railroad corporations, and it was such suspension which enabled these corporations to practice their oppressions upon the people of the State.

Denton declared himself opposed to the discrimination complained of, but did not think this was the proper remedy. He believed all this anti-railroad business in the Legislature was for the purpose of downing the Silver party. He believed in the enforcement of the Interstate Commerce law and the Comins' Senate resolution covered the ground and he would heartily endorse and vote for it.

Allen of Eureka believed the Comins' resolution was in the interest of the railroad corporations. It said and meant nothing definite, while the one under consideration was to the point and such as the people demand.

Beck denied the right of Denton to speak for the Silver party. He himself had trained with that party last fall and attempted to carry out its principles in the Legislature, but had been confronted with a majority which had violated it in every respect.

McNaughton, Denton, Gorman and Hogan followed in the discussion. The resolution was defeated by the following vote:

Yeas—Allen of Eureka, Beck, Flannigan, Francis, Hogan, Leidy, McNaughton, Russell, Stanley, Wilson, Mr. Speaker—11.

Nays—Beals, Briggs, Brockhaus, Constant, Crisler, Denton, Gorman, Greenwood, Hall, Hinman, Murphy, McDonald, Newman, Noel, Pitt, Wieland—16.

Absent or not voting—Conbois, Court and Coryell.

McNaughton moved that the Speaker appoint a committee to co-operate with the Senate committee in the matter of an Inaugural ball. Carried, and McNaughton, Constant and McDonald appointed on such committee from the Assembly.

GENERAL FILE.

By McDonald, A. C. R. No. 7—Relative to the interests of the silver producing States and Territories. No man to be elected to Congress who is not for free and unlimited coinage. Passed.

By Noel, A. B. No. 37—Consolidating certain Storey county offices, fixing compensations, etc. Passed.

By McNaughton, A. B. No. 50—Authorizing the Esmeralda County Commissioners to issue bonds in payment of county indebtedness. By permission the bill was withdrawn.

At 3:40 Assembly adjourned.

INCIDENTALS.

And now it is substantially and officially promulgated that we are to have an Inaugural ball after all. The Assembly has appointed a committee which met in conjunction with the Senate committee and the State officers in the office of the State Controller this afternoon after the Legislature adjourned. Senator Boyle presided and Surveyor-General Pratt was Secretary. The Inaugural and Legislative ball is to take place on the 25th instant at the Opera House. The various Committees of Arrangement, Reception, Music, Hall, Refreshments and Finance were selected and the ball rolls. Tickets of admission \$5, the surplus, if any, to go to the benefit of the Orphans' Home library. No intoxicating refreshments to be admitted if known. Swallow tailed coats not barred, and clay pipes only allowed "after the ball."

The Carson Minstrels will visit Reno Saturday evening and give their very best entertainment of the season at the Opera House. They met with a grandly appreciative reception at Virginia City, Piper's Opera House being crowded as long as a live soul could squeeze into it and they gave eminent satisfaction. There are forty of them in all, comprising the best musical and stage talent in Carson—ladies and gentlemen. Seven ladies and seven gentlemen appear in the first part or opening "circle," besides the musicians, all "black face." Sixteen young ladies appear in the military drill, which cannot be excelled, also in the broom drill, fan drill and the beautiful Indian club drill. The scenic effects, with colored calcium lights, are magnificent, and the whole entertainment throws far into the shade any of the professional theatrical performances that have visited this section for a year or more. This entertainment will be given for the benefit of the Carson High School organ fund—a good cause with an affluence of enjoyment in effecting it.

John B. Wright Buried With Appropriate Military Honors.

One of the saddest funerals that has ever taken place in Reno occurred yesterday afternoon. John B. Wright, one of the most popular young men of Reno, who died last Sunday afternoon was buried under the auspices of Company "C" N. G. of which he has been an honored member. At 1:30 P. M. the guards began to assemble at the Armory where the remains had been lying under a guard of honor for three days past. Soon afterwards the University cadets, 106 strong, marched to the Armory and after a few short preliminaries the line was formed. Company "C" taking the right of the line, followed by the cadets and the gatling gun corps and, a long line of carriers. The procession moved to the M. E. Church where the funeral services were conducted by the pastor. The line was again formed and proceeded to Hillside cemetery, where all that was mortal of poor John was lowered into the grave. The burial services were read and a volley fired, then followed the bugle call of "taps and lights out," and as the sad notes of the bugle echoed and re-echoed over the valley many a head was bowed and many a tear dropped in sympathy for the poor brother who stood at the grave and the father and mother, sisters and brothers who were far away, but whose grief was all the more intense. There were a number of handsome floral pieces from the faculty of the University, Company "C" and friends, two of which had the word "rest" and the name of the deceased, "John," worked in.

The whole was a fitting tribute to the deceased, and demonstrated the high esteem in which he had been held, and there were many sad hearts yesterday among his former companions when they thought that only a few weeks ago he was among them in comparatively full health and everything to live for before him.

A RARE OCCURRENCE.

A February Without a Full Moon—it Will Not Occur Again for Two and a Half Million Years.

February, 1866, is referred to by astronomers as "the month without a full moon." January and March of that year had each two full moons, while the intermediate month did not have one. Says a writer in an astronomical journal, referring to this fact: "Do you realize what a rare thing in nature it was? It has not happened before since the beginning of the Christian era, or probably since the creation of the world! It will not occur again according to the computations of the astronomer royal of England, for—how long do you think? Not until after 2,500,000 years from 1866!"—*Philadelphia Ledger*.

INTERESTING FACTS ABOUT THE SKINS WHICH COVER OR ADORN THE HANDS.
Barfooted boys and hens form a curious partnership in the making of a pair of fine gloves.
They work together in preparing the skins for the hands of the fashionable woman who rushes to the stores every time a new shade of glove is announced. Thousands of dozens of hens' eggs are used in curing the hides, and thousands of boys are employed to work the skins in clear water by treading on them for several hours.
When a woman buys a pair of gloves, she speaks of her purchase as "kids." If the clerk who sold her the "kid" gloves knew the secrets of the glove-making business, he might surprise his fair customer by telling her that those beautiful, soft, smooth fitting "kid" gloves came from the shoulders and belly of a 2-weeks-old colt whose neck was hit on the plains of Russia, and whose tender hide was shipped with heavy bundles of other colts' hides to France, where they were made up into "kid" gloves, or he might with equal reason tell the truth to her that those "kid" gloves from the other compartment once hid a lion from tree to tree in South America, or the back of a ring tailed monkey. And if he made the rounds of the skins and could distinguish one skin from another he could point out "kid" gloves from the skins of kangaroos, wallabies, lambs or sheep from Australia, Spain or England; calves from India, moose from anywhere, musk oxen from China and other parts of Asia, cats, cats and Newfoundland puppies.
The Russian colt, the four year old from the plains where the colts live, the colt from the steppes of Russia, where horses are raised by the thousand, supply the skins which are the materials at present with the glove makers. Experts say that the colt makes a better, stronger, finer glove than a real kid skin, and as the colt is a little fellow only 2 weeks old when he is killed but a small amount of skin can be made into gloves, so that the price is not too high.

But, for all, the real kid, the five year old of the goats which live in France, Switzerland, Spain and Italy, furnishes the best, finest and most expensive gloves, and nearly 10,000,000 kids are sacrificed every year in order that women and men may cramp their hands in wrinkleless, delicate hued gloves. —Chicago Record.

Klotschen - What Is It?
Under the title of "A Game We Might Play," the Marquis de Lorno in Good Words puts in a plea for an open air winter pastime in the low countries of northern Europe which has for centuries enjoyed a sort of national reputation. It is a rough sort of golf, played without clubs or holes, is inexpensive and can be played by two single opponents or with two on a side. The article contains a very picturesque description of a match between two villages in Friesland, at which the writer was present, and conveys a striking impression of the popularity of the game and of the spirited emulation which it awakens. It is pointed out that in England there are many districts, especially in the east of the island, which are peculiarly well adapted to the game, there being in these parts much flat land where winter makes the ground hard. Whoever these conditions exist, there, we are told, the "klotschen," or "clotshot" game can be played with advantage. —London News.

Lake Haron was named from the Haron, an Indian tribe on its shores.
Dabster Misunderstood.
Figg—What kind of a writer is Dabster? Is he possessed of descriptive powers?
Fogg—Unfortunately, yes.
Figg—Unfortunately?
Fogg—Yes. In his recent sketch of a western girl he spoke of her commercial traveler manner and her generous understanding. The Chicago people allowed that the "commercial traveler manner" was a compliment of which anybody except in the offest east might well be proud, but they suspected that the other characterization was a cheap fling at the size of women's shoes, and after that his writings were a drug in the western market. —Boston Transcript.
